BUREAU OF INFORMATION.

BUREAU OF PROVINCIAL INFORMATION.

IN ORDER that the Government may be in possession of definite information with which to supply those seeking investments in this Province, I am instructed to invite particulars from those who have properties for sale, and who may feel disposed to forward such particulars to this office for the purpose in question.

In view of the proposed early re-organisation of the Agent General's Office in London, England, the desirability of having on file a list of farms and other properties for sale, with full and accurate details, is obvious. Properties submitted may include farms and farm lands, industrial or commercial concerns, timber limits, water powers, or other enterprises affording opportunities for legitimate investment.

It is not proposed to recommend properties to intending investors, but to afford the fullest access to the classified lists and all available information connected therewith, and to place enquirers in communication with the owners.

The fullest particulars are desired not only of the properties themselves, but of the localities in which they are situated, and the conditions affecting them. For this purpose printed schedules will, upon application, be forwarded to those desirous of making sales.

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, together with the notices published. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be pro-

vided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

A By-Law for assessing property adjacent to any water main or pipes with a reasonable proportion of the cost thereof, to be known as the "Water Main Assessment By-Law."

WHEREAS it is deemed expedient to pass a by-law assessing property adjacent to any water main or pipes in the city with a reasonable proportion of the cost thereof, calculated on the basis of the frontage of such property to streets or lanes in which the water main or pipes are laid:

Therefore, the Mayor and Council of the Corporation of the City of Vancouver, in open meeting assembled, enact as follows:—

1. All property in the City of Vancouver abutting on streets, lanes or alleys in, under or upon which water mains or pipes, over and above one inch in diameter, are constructed or laid, shall be, and the same is hereby assessed at the sum of five cents per foot of the frontage of such property abutting upon such street or portion of a street as aforesaid, and such rate of five cents per foot frontage is hereby levied thereon: Provided, always, that where any such property is situate at the intersection of a street, lane or alley with any other street, lane or alley, upon each of which streets, lanes or alleys there is a water

main or pipe, the frontage upon the street only of such property shall be assessed for the frontage tax hereby imposed: Provided further, that where any such property is situate at the intersection of a street with any other street, lane or alley, and the water main or pipe is laid only along a street, lane or alley upon which the flank of such property abutts, then so much of the flank as is to equal the frontage on the street of such property shall be assessed for the frontage tax hereby imposed.

2. It shall be the duty of the Assessment Commissioner, on or before the 31st day of December in each year, to ascertain and place upon an assessment roll to be prepared for the purpose a statement of all lots and blocks of the property fronting or abutting on any streets, lanes or alleys in the city, in, under or upon which a city water main or pipe has heretofore been constructed, and the names of the respective owners thereof.

3. It shall be the duty of the Assessment Commissioner to calculate and set down every year in such roll as aforesaid, opposite the name of the owner and the description of each property, the amount so assessed, and the frontage tax required to be paid by him or her and assessed against such property for the then current year under this by-law, and shall mail a notice to such owners, at the same time and in the same manner as city assessment notices, which notice shall contain the date of the sitting of the City Annual Court of Revision; and notice of any complaints to be made against such assessment shall be given by the owners, and shall be heard by such Court, and shall be dealt with in the same manner and subject to the same right of appeal in all respects as in the case of the assessment for city taxes on real property made under the provisions of the "Vancouver Incorporation Act, 1900," and on the roll being revised and settled by the Court of Revision shall deliver the same to the Clerk of the city on or before the first day of March of each year.

BOARD OF HORTICULTURE.

OFFICE OF THE BOARD OF HORTICULTURE,
DEPARTMENT OF AGRICULTURE,
23rd November, 1900.

The following Rules and Regulations adopted by the Board of Horticulture at the Statutory Meeting held at the Office of the Board on the twenty-third day of November, 1900, are published in pursuance of Section 7 of the Horticultural Board Act, 1894.

J. R. ANDERSON,
Deputy Minister of Agriculture.

Rules and Regulations made and published under authority of Section 7
of the "Horticultural Board Act, 1894," and of the
amendments thereto.

Title.

1. These Regulations may be cited as the "Horticultural Regulations."

Definitions.

2. In these Regulations the word "pests" shall mean and include woolly aphis, apple tree aphis, scaly bark louse, oyster-shell bark louse, San Jose scale, red scale, borers, codlin moths, currant worms, caterpillars, or other known injurious insects, and all fungous diseases. "The Board" shall mean the Provincial Board of Horticulture.

Notification of the Presence of Pests.

3. All nurserymen, fruit-growers, and all persons owning, occupying or managing an orchard, garden, or nursery infected with any pest, shall notify the member of the Board for the district in which such orchard, garden, or nursery is located, or the Secretary or Inspector, or the agent of the Board in the district, of the fact that such orchard, garden or nursery is so infected.

Inspection of Nursery Stock.

4. All importers, agents for importers or consignees of nursery stock, trees or plants, must give notice to a member of the Board, or his agent, or the Inspector of Fruit Pests, upon the arrival of any nursery stock, trees or plants, before the removal of such nursery stock, trees, or plants from any dock, wharf, mole, station, or warehouse where such nursery stock, trees, or plants have been landed, and if such nursery stock, trees, or plants are found to be free of insect pests and fungous diseases, the said member of the Board, his agent, or the Inspector of Fruit Pests, shall issue a certificate

to that effect; and all such nursery stock, trees, or plants, if found to be infected with any insect pest or fungous disease, shall be dealt with according to the Rules and Regulations of the Board. All dealers, nurserymen, or persons selling or distributing nursery stock, trees, or plants for which no clean certificate is in force shall, before distributing or offering for sale any article above mentioned, notify the member of the Board, his agent or representative, in whose district any such article is found, or the Secretary of the Board, or the Inspector of Fruit Pests, who shall inspect or cause to be inspected such nursery stock, trees, or plants, and if they are found to be free from pests, shall issue a certificate to the owner or person in charge, stating that said articles appear to be free from pests. Such certificate shall be in force for three months from date of issue, unless revoked by further inspection.

Disinfection of Nursery Stock, Trees and Plants.

5. All persons owning or having in their possession nursery stock, or trees and plants of any kind, infected with insect pests or fungous disease, shall cause the same to be disinfected and cleansed by using the remedies herein prescribed, or such other insecticides and fungicides as may be found effective, and are approved by a member of the Board or the Inspector of Fruit Pests, and no such inspected nursery stock, trees or plants shall be sold, forwarded, distributed or parted with until a certificate of the satisfactory cleansing thereof shall have been obtained from a member of the Board or his agent, or the Inspector of Fruit Pests. Any member of the Board or the Inspector of Fruit Pests may order the destruction, by rooting out and burning, of all infected nursery stock, trees, or plants of any kind, if, in the opinion of such member of the Board or Inspector of Fruit Pests, such a course is considered expedient in the interests of the fruit-growing industry.

Inspection of Imported Fruit.

6. All importers, agents for importers or consignees of fruit must give notice to a member of the Board or his agent, or the Inspector of Fruit Pests, upon the arrival of any and all shipments of fruit; and all fruit and fruit packages imported into this Province shall be inspected, and if found to be free from insect pests and fungous disease a clean certificate shall be issued therefor in conformity with the Rules and Regulations of the Board: Provided, however, that no fruit or fruit packages imported into this Province shall be removed from any dock, wharf, mole, or station where such fruit and fruit packages have been landed, before inspection, and such clean certificate thereof shall have been obtained, and all such fruit and fruit packages as may be found infected with any insect pest or fungous disease shall be either destroyed by the importers thereof, by such process and within such time as any member of the Board, the Inspector of Fruit Pests, or any agent appointed by the Board may direct, or shall be re-shipped, within such time as any member of the Board, the Inspector of Fruit Pests, or any agent appointed by the Board, may direct, by the importers thereof, to some point without the Province: Provided, however, that fruit which has been condemned shall not be transported through the Province. Packages containing infected fruit shall be marked with a distinctive mark or brand at the time of the inspection thereof by the inspecting officer. It shall be an offence against the Rules and Regulations of the Board of Horticulture to deface or remove such mark or brand.

Inspection of Imported and Home-grown Fruit.

7. All fruit, whether imported or grown in this Province, or exposed for sale, shall be subject to inspection under the authority of the Board, and if found to be infected with any injurious insect pest or fungous disease shall be quarantined, or may be destroyed at the expense of the owner of said fruit, by such methods as the Board or its agents may direct. Packages containing quarantined fruit shall be marked with a distinctive mark or brand at the time of the inspection thereof by the inspecting officer. It shall be an offence against the Rules and Regulations of the Board of Horticulture to deface or remove such mark or brand.

Stencilling and Labelling.

8. All persons shipping, sending or delivering any fruit, fruit trees, scions, cuttings, or plants within the Province shall place upon or securely attach to each box, crate, or other package or parcel containing the same a distinct stamp, mark, or label showing the name of the producer and shipper or sender, and the locality where grown. Boxes and barrels containing fruit shall be stencilled or stamped accordingly with letters not less than three-quarters of an inch in length.

Treatment of Nursery Stock.

9. All infected nursery stock shall, before being distributed, be disinfected by dipping in a solution of one pound caustic soda (concentrated lye) and one pound whale-oil soap to every five Imperial gallons of water, thoroughly dissolved, and applied at 130° Fahrenheit in a vat or any suitable vessel, or the said nursery stock may be disinfected by covering with an air-tight tent or box, and for each and every 100 cubic feet of space therein one ounce of fused cyanide of potassium (58 per cent.,) one fluid ounce of sulphuric acid, and three fluid ounces of water shall be used. The cyanide of potassium shall be placed in an earthenware vessel, the water poured over the said cyanide of potassium, afterwards adding sulphuric acid, and the tent or box to be immediately closed tightly and allowed to remain closed for not less than forty-five minutes. Treatment for disinfection shall continue until all insect pests or their larva are destroyed.

Remedies.

10. For the extirpation of the “woolly aphis” and other insect pests, the Board has adopted the following formulæ, which are found to be effectual in the States of California, Oregon and Washington:—

Spray No. 1.

(Winter Spray for Woolly Aphis and Scale Insects.)

Ingredients.

Lime, unslacked.....	30 lbs.
Sulphur, powdered.....	20 "
Salt, coarse.....	15 "
Water	60 gals.

Directions.

Place 10 pounds of lime and 20 pounds of sulphur in a boiler with 20 gallons of water, and boil over a brisk fire for two hours, until the sulphur is thoroughly dissolved. It will then be amber-coloured. Next place 20 pounds of lime in a cask and pour water enough over it to thoroughly slack it. Add the salt. When dissolved, add to the lime and sulphur and boil half an hour longer. Add enough water to make 60 gallons. Apply lukewarm.

Directions for use.

Spray when the trees are dormant, or as soon as the leaves fall, and again in the spring before the buds swell. A good force-pump should be used, and care must be taken to thoroughly cover the infected trees with the mixture, which should be constantly stirred when applying.

The above preparation can be obtained in solid form, requiring only the addition of water to be ready for use, and, owing to the difficulty of preparation, the Board advises the adoption of this method. Care should be taken to add the necessary quantity of water to reduce the mixture to the strength recommended above.

NOTE—To ensure freedom from lumps it is advisable to pass the mixture through a wire sieve or strainer. Nozzles which are self-cleaning and adjustable, such as the “Improved Bean” and “Bordeaux,” are best adapted for distributing this and other spraying mixtures which contain a considerable amount of solid matter.

Spray No. 2.

(Summer Spray for Aphis.)

Ingredients.

Quassia chips	8 lbs.
Whale oil soap	7 "
Water	100 gals.

Directions.

Boil the quassia chips in about one gallon of water to each pound quassia chips for one hour. Dissolve the soap in hot or boiling water; strain and mix both together, and add the required amount of water to make 100 gallons altogether.

To be used with spray pump with as much force as possible. This is the standard remedy for aphis in hop yards, and has given good results against other forms of aphides wherever tried, with no injury to foliage.

Spray No. 4.

(Bordeaux Mixture for Apple-seab and other Fungous Diseases.)

Ingredients.

Sulphate of copper (bluestone).....	4 lbs.
Fresh unslacked lime.....	4 "
Water.....	50 gals.

Directions.

In a barrel place 25 gallons of water. Weigh out 4 pounds of sulphate of copper; then tie the same in a coarse gunny sack and suspend it just beneath the surface of the water. By tying the bag to a stick laid across the top of the barrel, no further attention will be required.

In another vessel slack the 4 pounds of lime, using care in order to obtain a very smooth paste free from grit and small lumps. To accomplish this it is best to add only a small quantity of water at first, say two or three pints. When the lime begins to crumble and the water disappears, add more water gradually.

If added carefully and slowly a smooth paste will be obtained, provided the lime is of good quality. Then add sufficient water to bring the whole up to 25 gallons.

When the copper sulphate is entirely dissolved and the lime cool, pour the lime milk and copper sulphate solution slowly together in a barrel, and stir well with a broad wooden paddle to ensure perfect freedom from lumps of lime; it is often necessary to pass the whole mixture through a fine wire sieve or strainer before commencing to spray. For apple and pear-seab, spray before the buds open. Repeat before the blossoms expand, and again after the blossoms fall. If necessary, repeat again in ten days' time; this will depend upon weather conditions and variety of fruit treated.

The Vermorel nozzle, which distributes the spray in a mist like foam, is probably the best for use with this mixture.

Spray No. 8.—Hellebore.

(For Pear and Cherry Slugs, Gooseberry and Currant Worms.)

For use with spray pump take 1 ounce hellebore to 1 gallon of water. Steep the hellebore in one pint of boiling water for an hour, then add the balance of water, cold. Hellebore is, however, generally used in the powder form, dusted on the trees or plants treated. A machine for the purpose is the best method of using it on a large scale. In all cases care should be taken to get fresh hellebore to ensure satisfactory results.

Spray No. 9.—Paris Green Spray.

(For Codlin Moth, Caterpillars and other Leaf-eating Insects.)

Ingredients.

Paris green.....	4 ozs.
Fresh slacked lime.....	1 lb.
Water.....	50 gals.

Make a paste of the Paris green with a little water. Make the lime into milk of lime with water. Mix all together and add water to make the required amount.

Paris green is a heavy powder and does not remain long in suspension, hence it must be kept constantly stirred when using. Be sure that good lime is used to prevent burning of foilage. Apply with spray pump. London purple may be used in place of Paris green, but is not usually so reliable.

Paris green or London purple can generally be used to advantage with Bordeaux mixture, making a combined fungicide and insecticide. Use in the proportions given above, viz, 4 ounces Paris green to 50 gallons Bordeaux mixture.

Spray No. 15.—Lye and Soap Wash.

(For winter use only.)

Ingredients.

Concentrated lye.....	1 lb.
Whale oil soap.....	1 lb.
Water.....	5 gals.

Directions.

Dissolve the lye and soap in the water, heated. The mixture may be applied with a swab or brush, or with the spray pump if used warm.

One thorough application in the fall and another before growth commences in the spring should be made when used against woolly aphides. This is also an excellent wash to remove moss or lichen from trees and bushes, and for this purpose alone half the amount of soap is sufficient.

For further information regarding insect pests and spraying mixtures see Horticultural Bulletin, which can be obtained from members of the Board, or by application to the Department of Agriculture, Victoria.

11. Where pests or fungous diseases are found to exist during the growing season, while the trees are in leaf, spraying must be done and such remedies applied as shall be recommended by or under authority of the Board from time to time, so that the insects or diseases can at least be held in check until the stronger washes of the dormant season can be safely applied.

Destruction of Packages.

12. All boxes, crates or other packages or wrappings which have contained infected nursery stock shall be destroyed by fire immediately after the removal of the contents thereof.

Hop-fields.

13. Where hop-fields are infected with the hop-louse, spraying must be done as the Board from time to time shall recommend.

Quarantine Regulations.

14. Transportation companies, express companies, wharfingers, or warehousemen receiving or conveying nursery stock, trees, plants or fruit shall convey, or cause the same to be conveyed, to one or other of the quarantine stations, or to such other point as provided in section 15 of these Regulations, but shall in no case deliver, or cause to be delivered, such nursery stock, trees, plants or fruit, or any portion thereof, to the owners, consignees, or any other person whatsoever, without the written permission of the quarantine or inspecting officer.

A quarantine officer may also, if in his opinion such a course is necessary, detain any nursery stock, trees or plants for the purpose of disinfection, at a quarantine station, until such quarantine officer is satisfied that all infection is removed: Provided, however, that in no case shall the inspection of nursery stock, trees, plants and fruit be done by a quarantine officer having any pecuniary interest in the same.

Quarantine Stations.

Victoria,	Cranbrook,	Vernon,	Midway,
Vancouver,	Waneta,	Nanaimo,	Rykert,
Rossland,	Grand Forks,	Union,	Hazelmere,
Fort Steele,	Greenwood,	Golden,	Huntingdon.
Phillipps,	Revelstoke,	Sidley (Osoyoos),	

Inspection at points other than Quarantine Stations.

15. Importers or owners of nursery stock, trees or plants desiring to have such nursery stock, trees or plants inspected at points other than regular quarantine stations, may have such inspection done where required: Provided, however, that such importers or owners shall pay all charges of inspection and expenses of the officer employed in such inspection. Such charges and expenses to be paid before a certificate is granted.

Inspection Fees.

16. The fees for inspection of apple, pear, plum, cherry and other fruit trees shall be as follows:

On all consignments numbering—

Under 100 trees.....	\$2 50
100 trees and under 250.....	3 50
250 trees and under 500.....	4 50

And for every additional 500 trees or fraction thereof over 500, \$1 additional.

For other nursery stock the fees shall be as follows:—

\$2 50 on \$25.00 in value or fraction thereof.

\$3 50 on any consignment over \$25.00 and up to \$50 in value; and five per cent. additional on the value over \$50.00.

When nursery stock, trees or plants are found to be infected with insect pests or diseases, a charge of fifty per cent. will be added to the foregoing rates to pay expenses of the quarantine officers for supervising disinfection and subsequent inspections.

On fruit—viz., apples, pears and quinces—the minimum fee shall be \$1.00 for any number of boxes up to 33, and all in excess of this number shall be at the rate of three cents per box. On fruit packed in barrels the fee shall be \$1.00 for any number of barrels up to ten, and for any number of barrels over ten the fee shall be at the rate of ten cents per barrel.

It is furthermore provided that all other varieties of fruit shall be subject to inspection, if deemed necessary, on the same terms and subject to the same fees as those above mentioned.

Certified invoices will be required.

Penalties.

17. Every person violating the provisions of the "Horticultural Board Act, 1894," or any amendments thereto, or the rules and regulations adopted by the Board, is liable, upon summary conviction before a Justice of the Peace, to a penalty not exceeding fifty dollars for each offence.

Repealing former Rules and Regulations.

18. All Rules and Regulations heretofore adopted and published under the authority of the "Horticultural Board Act," or any amendments thereto, are hereby repealed, and the foregoing Rules and Regulations substituted in lieu thereof.

Recommendations.

Horticultural and Agricultural Societies, and all those interested in advancing and protecting the interests of fruit-growing, are requested to co-operate with the Board in the enforcement of the provisions of the "Horticultural Act" and the regulations thereunder as adopted by the Board.

Correspondence.

All correspondence relating to the extirpation of fruit pests should be addressed to the Inspector of Fruit Pests or the member of the Board whose district may be affected. Correspondence relating to other matters should be addressed to the Secretary of the Board.
